

SIG-Neuropathic pain 2018- Activity:

The main objective of the SIG is to publish guidelines on diagnosis and treatment of neuropathic pain
The guidelines have not been revised yet.

The SIG members were active in spreading the awareness and knowledge about neuropathic pain
through conferences and publications

- Swiss Neuropathic pain guideline promotion:

The guidelines were promoted at different conferences and courses for general practitioner and
health care providers .

-Publications on neuropathic pain:

Among others:

Piller N, Fernandez A, Suter MR. Pain, sex and neuroinflammation : toward gender bias?

Revue médicale Suisse. 2018;14(612):1292-4

Miscellaneous:

No SIG meeting during the year was scheduled for the members in the absence of new points to
discuss that could not be done by email.

No official meeting during the congress due to the one day format.

PD Dr Marc Suter, president of the SIG neuropathic pain
