

SIG-Neuropathic pain 2020-2021- Activity:

The main objective of the SIG is to publish guidelines on diagnosis and treatment of neuropathic pain
The guidelines have not been revised yet.

The SIG members were active in spreading the awareness and knowledge about neuropathic pain
through conferences and publications

Miscellaneous:

No SIG meeting during the year was scheduled for the members in the absence of new points to
discuss that could not be done by email.

No official meeting during the congress due to the one day format.

PD Dr Marc Suter, president of the SIG neuropathic pain, 25.07.2021
